

TRADE UNIONS PRIMARY SOURCE BIBLIOGRAPHY

DECEMBER 1996; updated June 2003; updated 2004

Compiled by Linda Briskin, York University

Organization of Bibliography:

1. Material is organized under 5 main headings:

1. REPORTS

- * addresses
- * conference reports
- * discussion papers
- * research documents
- * survey results
- * background papers
- * articles, essays
- * briefs
- * series
- * fact sheets
- * submissions
- * statistics

2. POLICY

- * statements
- * policy papers
- * proposed amendments
- * bargaining issues
- * resolutions
- * recommendations

3. PUBLICATIONS

- * newsletters
- * bulletins

4. EDUCATIONAL MATERIAL

- * pamphlets
- * kits
- * educational guides
- * posters
- * booklets
- * leaflets
- * guidelines

5. OTHER

- * surveys (incomplete)
- * conference agendas
- * calendars
- * financial reports
 - * list of delegates
 - * memos

* news releases

Note: At times it is difficult to distinguish whether material be placed in the Reports or Policy category. As a guideline, material found under Policy has to do with a DIRECT discussion of policy. So, for example, there may be something called a "report" but because it contains a discussion of resolutions, it has been filed under Policy.

2. Within each category, material is ordered by date, with the most recent coming first. When there is a month and/or day, it is ordered first. Entries with only a year follow after these entries.

For example: "Blah, blah, Blah," February 10, 1992.

"Blah, blah, Blah," January 16, 1992.

"Blah, blah, Blah," 1992.

3. Material with no date is ordered last.

4. Authors, if any, have been placed after the title (because most sources do not have any author.).

5. Sometimes several pieces of material are in one kit (ie. a convention kit). Important material is listed individually but is filed in the original kit.
